

# Recruitment opportunities for newly qualified and experienced radiographers

Lancashire Teaching Hospitals NHS Foundation Trust is one of the largest and highest performing trusts in the country, providing district general hospital services to 370,000 people in Preston and Chorley, and specialist care to 1.5million people across Lancashire and South Cumbria, in the North West of England. We provide care at Chorley and South Ribble Hospital and Royal Preston Hospital and the Specialist Mobility and Rehabilitation Centre and have over 1300 beds and approx. 7000 members of staff.

We provide many specialist tertiary services, deliver award winning teaching and development programmes, lead national and international clinical trials and research studies, and always give excellent care with compassion. When joining our friendly and dedicated team, you will have an unparalleled opportunity to learn, grow and flourish in a supportive and innovative environment, and work with some of the UK's leading healthcare experts.

We are proud of our hospitals and of the quality of care we provide for our patients, and that makes this a great place to work

We have job opportunities for various positions including:

**Band 5 radiographers** including the development opportunity to rotate into other modalities

**Band 6 specialist radiographers in CT**

**Band 6 specialist radiographers in Intervention**

These can be applied for via the **nhsjobs website**

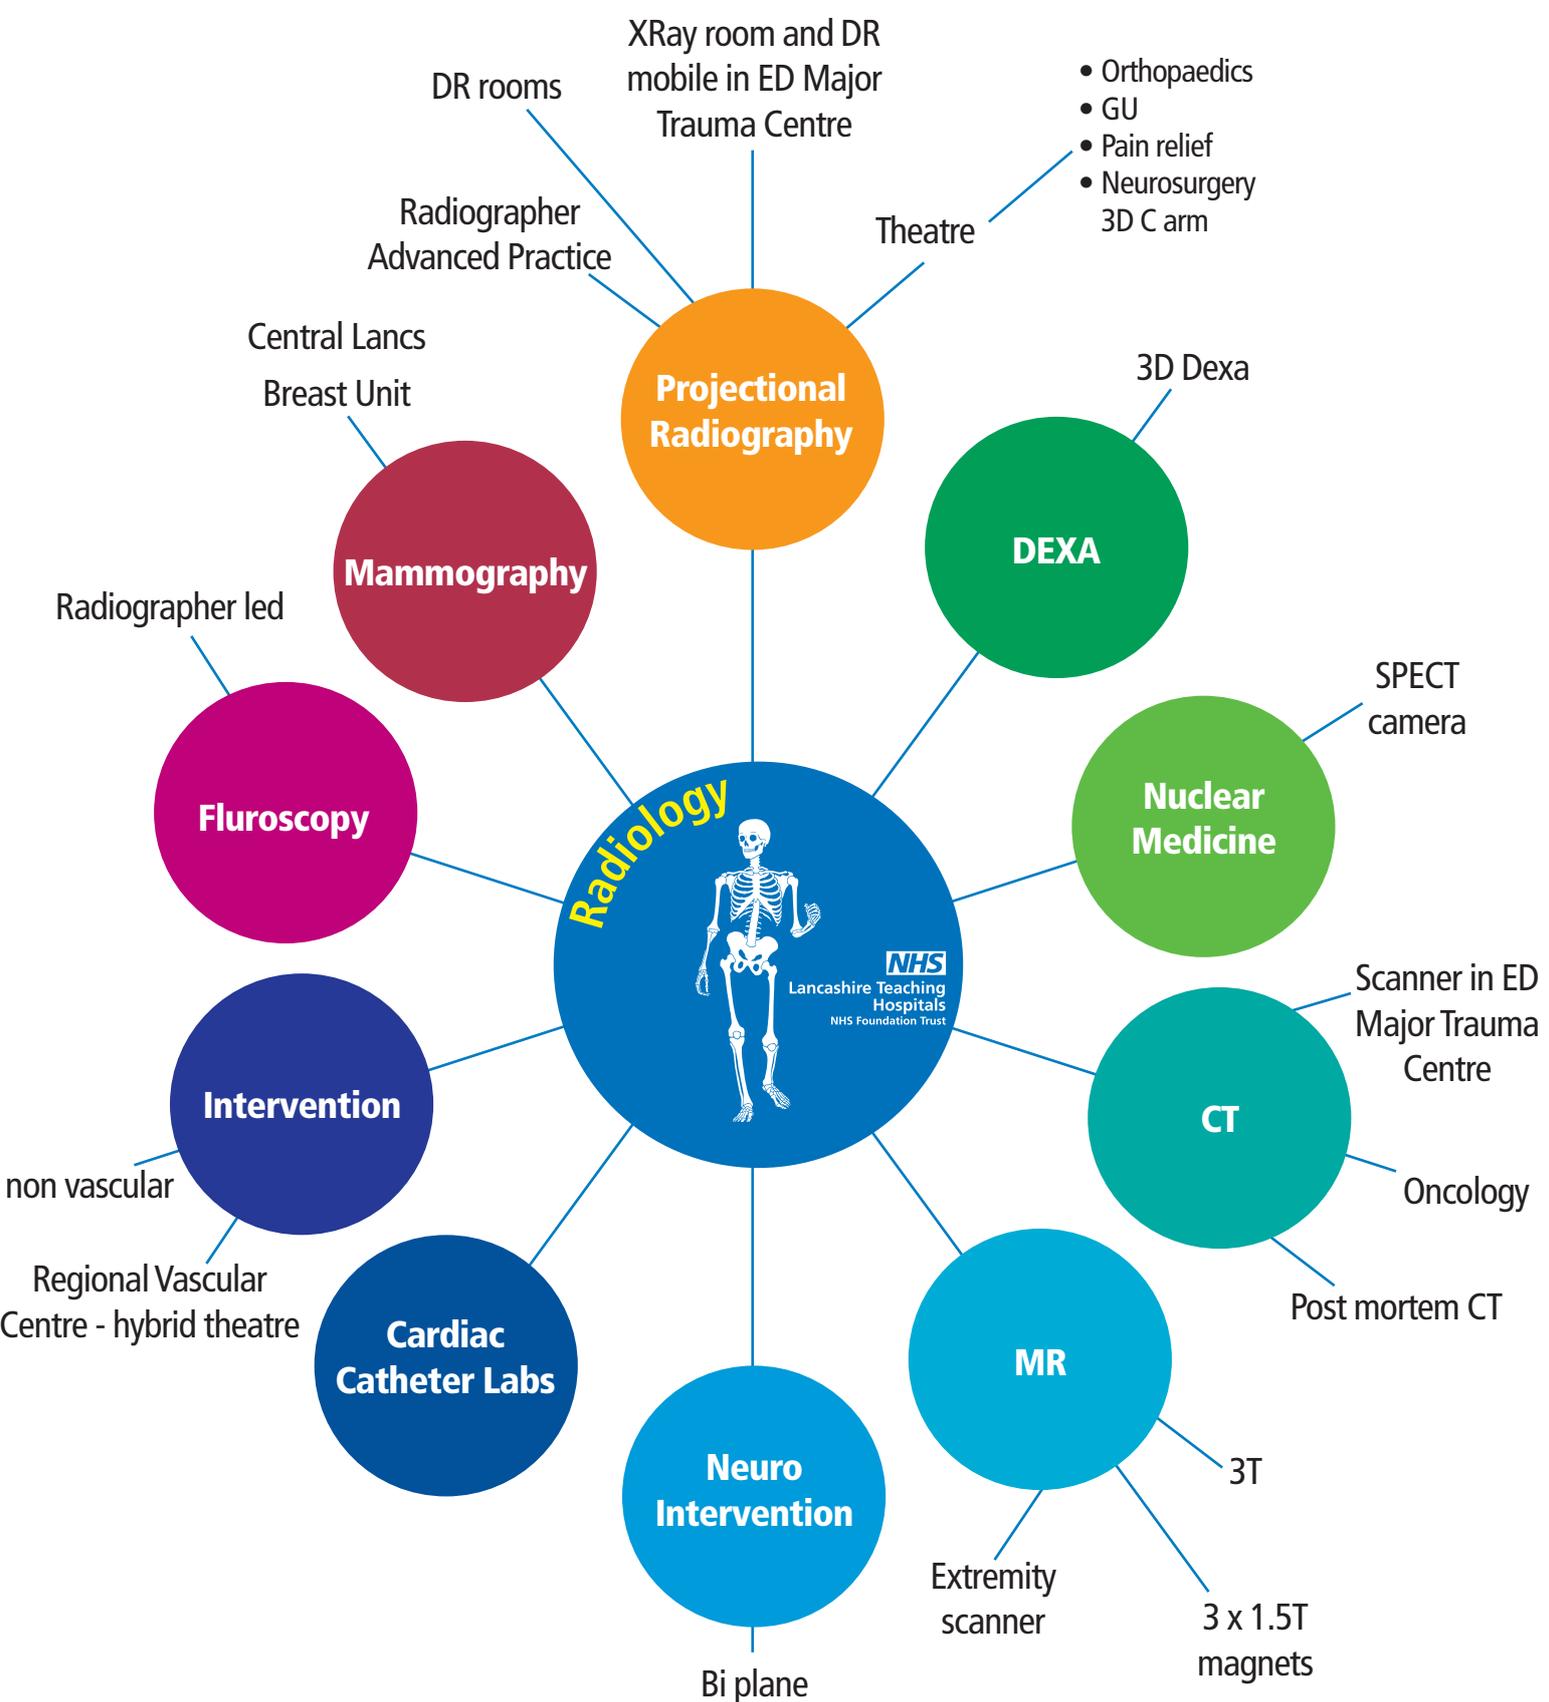

For a general discussion about any roles please contact **Caroline Mee**, Radiography Professional lead tel **01772 522420** or email **Caroline.mee@LTHTR.nhs.uk**

# Join one of the best Radiology Departments in the UK

We are looking for highly motivated, enthusiastic staff with excellent communication skills to join our already established teams.

We are looking to recruit radiographers both newly qualified and experienced across a range of specialities and can offer:

- Specialised induction programmes
- Mentorship and support
- Exciting training and development opportunities
- The opportunity to develop through rotations to different modalities

# Radiology at Lancashire Teaching Hospitals

# Training and education | Career progression

## Induction programme

We offer a full and extensive training/induction programme in all modalities within radiology to ensure you are fully prepared to successfully undertake your role.

## Preceptorship

We run an established preceptorship programme.

## Mentoring

Once you have been qualified for a year you will be encouraged to become a mentor for student radiographers. We work in conjunction with the University of Cumbria to provide practical placements for 36 undergraduate student radiographers over the 3 year course.

## Career progression/CPD

We actively encourage all radiographers to progress in their chosen career pathway and to obtain post graduate qualifications.

We have radiographers carrying out Advanced Practice in Reporting, Fluoroscopy, Nuclear Medicine, Ultrasound and Neuro-Intervention.

And radiographers who have and/or studying for formal post registration qualifications in:

PgCert/Dip/MSc in **Image Interpretation**

Pg modules in **GP Reporting**

PgCert/Dip in **Advanced Practice–Fluoroscopy**

PgCert in **Mammography**

PgCert in **CT**

Pg modules in **Post Mortem CT scanning**

PgCert/ MSc in **MR**

PgDip in **Nuclear Medicine Advanced Practice**

Pg modules in **cardiac stressing**

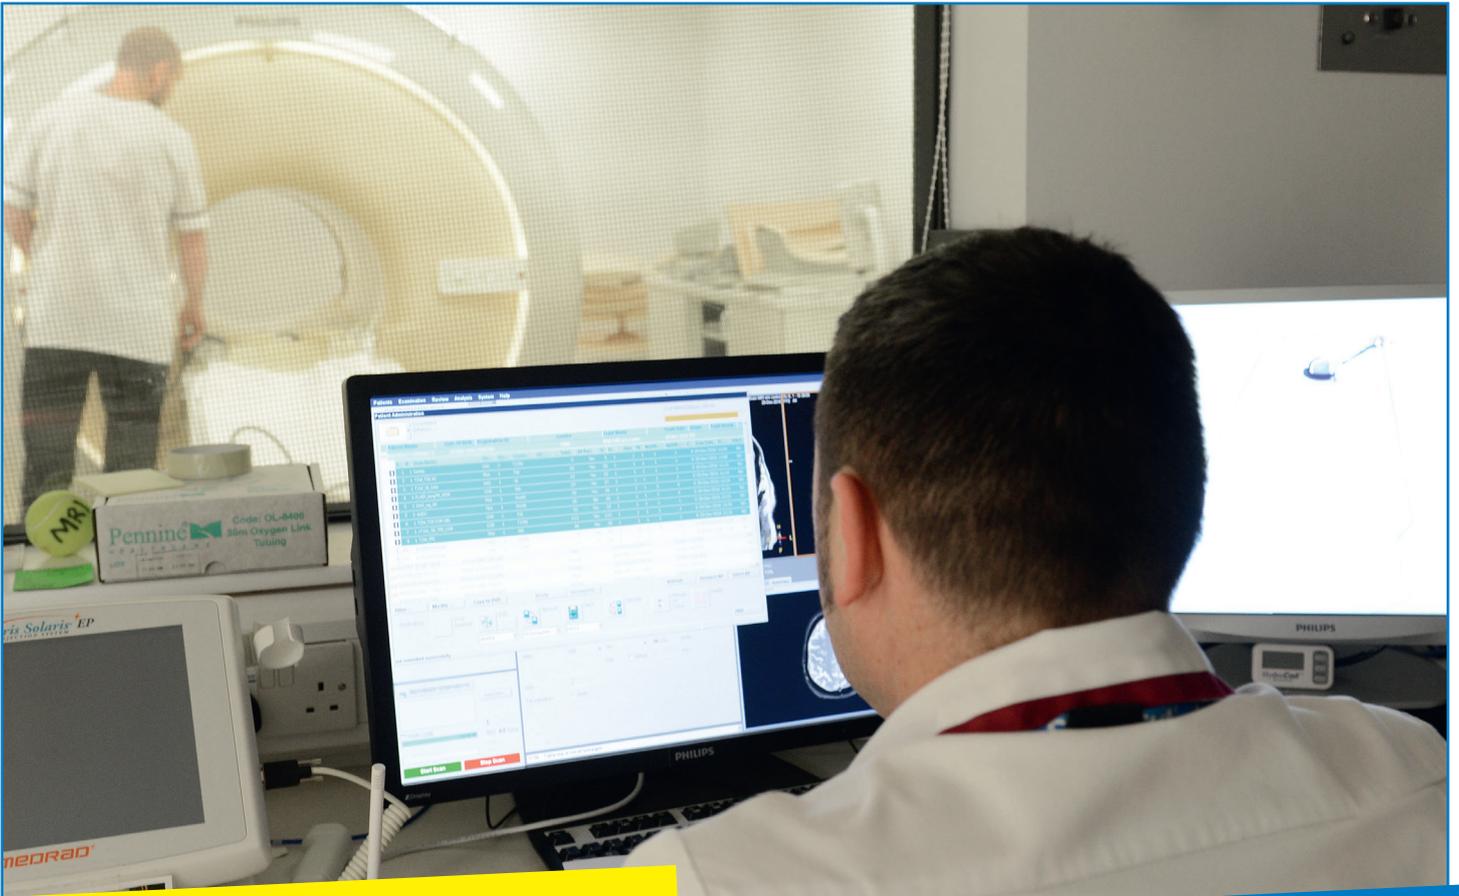

PgDip in **Ultrasound** including breast , vascular and MSK

National Osteoporosis Society Certificate in **Bone Densitometry**

NOS Certificate in **Bone Densitometry Reporting**

Radiographers are also encouraged to attend informal study days, training courses and national conferences related to their speciality and staff have attended: Cardiology training days, Vascular Intervention and Neuro Intervention training, BMUS, UKRC, BSIR, Nuc Med conference and many more

We have a CPD group in each department arranging a variety of activities for CPD at lunchtime etc.

# Clinical leadership | Research

## Clinical leadership

Many radiographers have completed the Trusts well developed Clinical leadership Development Programme which covers key leadership theories whilst maintaining a practical focus.

It includes areas such as gaining a personal insight, how to lead others, effective communication and developing the service.

## Research

Radiology works closely with the Research directorate to develop radiographers professional research skills.

All modalities are involved in clinical research trials.

I look  
**forward**  
to coming to work each day

Feel  
**proud**  
to wear the uniform  
for such a **great**  
place to work

It's  
**great**  
working with a  
**friendly &**  
**supportive**  
team

**Educating**  
the radiographers and doctors of  
**tomorrow!**

You  
**feel part**  
of a friendly  
community

An organisation that  
**supports staff**

I'm  
**proud**  
to say, that at the end of the day,  
**I've helped**

# Working for our hospitals? Our staff say...

Our staff are immensely proud to work for Lancashire Teaching Hospitals.  
Our support and training of staff is the reason we can give  
excellent care with compassion.

## Caring and Compassionate

We treat everyone with dignity and respect, doing everything we can to show we care

## Recognising individuality

We respect, value and respond to every person's individual needs

## Seeking to involve

We will always involve you in making decisions about your care and treatment and are always open and honest

## Team working

We work together as one team and involve patients, families and other services, to provide the best possible care

## Taking personal responsibility

We each take personal responsibility to give the highest standards of care and deliver a service we can always be proud of.

# Our values

Our staff are immensely proud to work for Lancashire Teaching Hospitals. Our support and training of staff is the reason we can give excellent care with compassion.
