CHILD PSYCHOLOGY
SENIOR CLINICAL PSYCHOLOGIST
JOB DESCRIPTION

JOB DETAILS:

Job Title	Senior Clinical Psychologist
Pay Band	8a
Hours of Work and Nature of Contract	To be completed on recruitment
Division/Directorate	Children & Young People's Services
Department	To be completed on recruitment
Base	To be completed on recruitment

ORGANISATIONAL ARRANGEMENTS:

Managerially Accountable to:	Team Lead/Clinical Service Manager
Reports to: Name Line Manager	To be completed on recruitment
Professionally Responsible to:	Consultant Clinical Psychologist or Head of Child Psychology

Job Summary/Job Purpose:

To provide a specialised clinical psychology service to clients of the sector, providing specialised psychological assessment and therapy to clients.

To work autonomously in accordance with The British Psychological Society Code of Conduct, Ethical Principles and Guidelines 2004, and Health and Care Professions Council.

Within the team, to exercise delegated responsibility for the management and supervision of assistant psychologists and the workload of trainees, within the framework of the team/service policies and procedures.

- To contribute to the development of local team policies and procedures in order to facilitate improvement in service quality.
- To advise service and professional management on aspects of the service related to the team where psychological and/or organisational matters need addressing.
- To provide professional and clinical supervision for designated staff, as appropriate.
- To provide clinical placements and supervision for Doctoral level trainee clinical psychologists and to deliver training to other professionals.
- To utilise specialised research skills for audit, policy and service development, and research.
- To act as a panel member in the recruitment of designated staff, as appropriate.

DUTIES/RESPONSIBILITIES:

1	Clinical
1.1	To exercise autonomous professional responsibility and be legally responsible and accountable for all aspects of professional practice, being guided by principles and broad occupational policies.
1.2	To provide specialised psychological assessments using a wide variety of methods, including psychological and neuropsychological tests, self-report measures, rating scales, direct and indirect structured observations and semi-structured interviews with clients, family members and others involved in the client's care.
1.3	To analyse, interpret and integrate complex assessment information where the data are often conflicting and incomplete.
1.4	To formulate plans for formal psychological therapy, across a range of care settings, based on a number of provisional hypotheses derived from psychological theory and evidence-based practice.
1.5	To be responsible for implementing a range of specialised psychological interventions, for individuals, carers, families and groups.
1.6	To adjust and refine psychological formulations and therapy options based on continual re-assessment of clients during therapy, monitoring and evaluating progress during the course of both uni- and multi-disciplinary care, in order to maximise the effectiveness of therapeutic interventions.

- 1.7 To be available to multi-disciplinary team colleagues for the provision of psychological advice and consultation on clinical practice.
 - 1.8 To undertake risk assessment and risk management for individual clients and to provide case-related advice to other professionals on psychological aspects of risk assessment and management.
 - 1.9 To act as a co-ordinator of care as appropriate, overseeing the provision of a care programme appropriate for the client's needs, co-ordinating the work of others involved with care, taking responsibility for arranging reviews as required, and communicating effectively with the client, his/her family and all others involved in the network of care, including professionals from other agencies.
 - 1.10 In highly sensitive clinical situations, to communicate, in a skilled and persuasive manner, complicated information about assessment, formulation and therapy plans with clients who may be confrontational, have major communication difficulties or be difficult to engage and maintain in therapy.
 - 1.11 In consultation with manager(s), to develop and maintain the highest standards of professional practice, through active participation in internal and external CPD training and development programmes.
 - 1.12 To contribute to the development and articulation of best practice in psychology within the team, by continuing to develop the skills of a reflexive and reflective scientist practitioner, taking part in regular professional supervision and appraisal and maintaining an active engagement with current developments in the field of clinical psychology and related disciplines.
 - 1.13 To maintain up to date knowledge of legislation, national and local policies and issues in relation to both the specific client group and mental health.
- 2 Service Management and Development**
- 2.1 To contribute to the development of local team policies and procedures, and implement accordingly.
 - 2.2 To suggest changes to team working practices in order to improve service quality.
 - 2.3 To contribute to the development of local team services.
 - 2.4 To advise service management on aspects of the service related to the team where psychological and/or organisational matters need addressing.
